2nd Video Conference Among the Coordinator Teachers
12.03.2021

FRANCE

SLOVAKIA

TURKEY

LATVIA

ITALY

HUNGARY

MINUTES OF THE MEETING

- All the partners attended the meeting.

PROJECT TASKS WE ALREADY COMPLETED

1. Announcement of the project approval
2. Online video conference to set up an action plan
3. Presentation of the project team of each partner school
4. Starting Twinspace of the project
5. Creation of the social media accounts
6. Creation of the project web page
7. Completing the preliminary survey

PROJECT TASKS WE AGREED TO DO

1. Italian coordinator, Alessandra created a link to logo competition for each country using [Mentimeter](#) and explained each partner how to start voting. A jury of three teachers and three students will be responsible for conveying the link to all students. And voting will end in seven days.

2. Except France and Turkey (partly), all the partners are teaching online. That is why we decided to postpone video presentation of 'my school, my city, my country'.

3. We have agreed to implement project activities online and encourage our pupils to use ICT tools.

- We decided to create RECIPE BOOKS of our traditional meals as suggested in the application form.

- 6 recipes per country will be included in the e-book.

- Turkish coordinator, Zehra suggested an e-book creator platform. Before sending the link to our students, each coordinator teacher will create their own account as a teacher.

<https://bookcreator.com/>

- The recipes will be both in English and the native language of the partner.
- We will upload the e-recipe books to Twinspace (on the PAGES - RECIPE BOOKS part)
- We will post e-recipe books on the FB page and web page of the project.
- **18th of April** will be deadline for the task.

4. All the partners are reminded to update social media accounts of our project.

5. We decided to meet on **19th of April** to discuss the latest situation in our countries and to exchange ideas about the next project task.
